Serial No.: 10/655,886

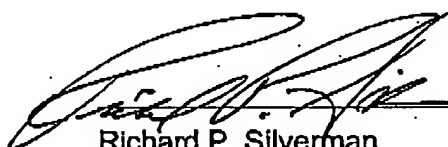

Art Unit 1621

Response to Examiner's Interview of 08/05/2005

REMARKS/ARGUMENTS

The Applicant would like to thank the examiner for the opportunity to discuss formal matters in connection with the subject case in a telephonic interview with Applicant's representative on 5 August 2005. In the interview it was agreed that Applicant should amend the claims to recite a composition rather than a compound and to make certain other amendments of a formal nature. It is believed that no new matter is introduced by these amendments. In a related matter, claims 39-41 relate to phlegmatizers. Applicant employs the term phlegmatizer in paragraph [00024] and originally filed claim 16. The amendments and remarks presented herein are believed to be fully responsive to the Examiner's questions. Accordingly, reconsideration of the present Application in view of the above amendments and remarks is respectfully requested.

Respectfully submitted,
